

## CEO Associate

**Location: Suresnes**

**Contract type: full time**

**Contact and application: alexandros@phagos.org**

**Starting: ASAP**

**Annual gross salary : TBD based on profile**

### Overview

[phagos](#) is deploying a global solution against the antibiotic resistance pandemic. We fight ever-evolving infections with ever-evolving medicines using machine learning and optimised microbiology.

As we prepare the next stage of our growth, we seek an ambitious, multi-talented individual who wants to see the inside of a fast-moving startup and work closely with the CEO. The ideal candidate is a future entrepreneur or executive who is able and excited to handle a wide variety of tasks. The level of work you'll do is only limited by your capabilities. Are you capable of designing a presentation? Researching a market? Creating a financial model? Taking the lead on key client conversations? Great, as long as you're also willing to book train tickets and run errands. You will get a true startup environment learning, unique visibility into a unique deep tech company, and the chance to move on to do many other things (at phagos, or elsewhere—with a strong endorsement).

### Tasks include:

- Identify and generate new business opportunities in France and internationally. Assist in nurturing existing ones
- Perform market research, identify emerging trends and opportunities with a focus on the agrifood, health, and biotech sectors. Competition watch
- Identify and generate public and private funding opportunities in France and internationally.
- Identify and generate relevant partnership opportunities for the company
- Help producing reporting & board materials
- Assist in general company operations
- Assist in company communication: supporting materials, posts, social media handling
- Generally, handle a wide array of ever-evolving tasks related to a CEO position

### Must-have:

- Master's degree in business domain or relevant equivalent
- Initiative taker, fast learner, problem solver, rigorous, can-do attitude — entrepreneurial mindset
- Excellent interpersonal, analytical and organizational skills
- Excellent oral and written communication skills
- Bilingual in French and English
- Some startup, VC, or strategic consulting experience

### Nice-to-have:

- Previous experience in the agrifood/health/biotech space

If you want to join a pioneering biotech startup with a mission to revolutionise the future of global health, we want to meet you! Please submit your application on the link below:
